Message Body	
<p>Jeff</p> <p>Had a good dinner this evening with George Dominguez Board member at Southwestern College his wife, Greg Sandoval and his wife and Angela and I. Greg encouraged George to support us to get the Program management assignment at Southwestern College. Right now the President of the college Raj Chopra has gotten real close to George. George believes he can influence Chopra right now because he needs his board support. He is going to set up a lunch with the President and let us pitch to him directly why they need to hire a PM right away they want to go over John Wilson. In addition, George is going to try and influence who will be put on the selection committee.</p> <p>Since George Dominguez works at Sweetwater and Greg Sandoval is on the board, George listens to Greg. We have a good shot here we need to keep working the relationships. Both George and Greg want to get to get a PM selected quickly because they do not know how much longer Chopra will stay at the college. This may move a lot faster than we think so we will have to be ready to mobilize the program in 60 days.</p> <p>Give me a call this weekend or next week and we can discuss in detail or we can wait to discuss after you get back from vacation.</p>
