Re: Stop the Crackdown on Marijuana Dispensaries

Kelly,

I am writing to direct the Department of Neighborhood Code Compliance to stop targeted code enforcement against marijuana dispensaries in the City of San Diego immediately.

Further, pursuant to a letter from the City Attorney dated January 9, 2013, I am directing your Department to stop sending dispensary code enforcement cases to the City Attorney's Office for prosecution.

To be clear, if there are general code enforcement or health and safety issues arising from these businesses, you are expected to enforce those laws against these businesses in the same manner you would any other business.

If you have any questions, please contact my office directly.

Sincerely,

BOB FILNER
Mayor
